UI/UX DESIGNER

A 20-year-old UI/UX designer based in New Delhi, pursuing a BCA at IGNOU alongside a UI/UX Diploma at Arena Animation. Focused on user-centered design across mobile and web — from wireframes and user flows through to high-fidelity prototypes. Google UX certified with hands-on experience in Figma, Photoshop, and front-end fundamentals.

EXPERIENCE

Freelance UI/UX Designer

Self-employed · Remote

Sep 2025 – Feb 2026 · 6 mos

- Took on independent client projects covering app UI, landing page design, and brand identity work.
- Delivered end-to-end design — from wireframes and user flows to final high-fidelity mockups in Figma.
- Collaborated directly with clients to understand requirements and iterate on feedback.

PROJECTS

Payment Application UI — Paylt

Figma, Adobe Illustrator

2025

- Designed end-to-end mobile payment UI covering transaction flows, onboarding, and dashboards.
- Built wireframes, user flow charts, and high-fidelity mockups focused on trust and simplicity.

Internship Tracker App — Tracktern

Figma, FigJam

2025

- Designed a student-facing app to track internship applications, deadlines, and progress.
- Conducted user research and built a full case study documenting design decisions.

Peer Skill Exchange Platform — SkillSwap

Figma → React (deployed)

2025–2026

- Designed multi-screen UI in Figma, then converted the entire design into a functional React app.
- Deployed on Netlify; responsive across desktop and mobile.

Payment App & Brand Identity — Zypay

Adobe Photoshop, Adobe Illustrator

2025

- Designed UI for a payment app alongside a full brand identity — logo, palette, and typography system.
